## COUNTY SCHOOL NOTES

The chief characteristic of the schools of the county this year is the increased attendance. This contrast is especially noticed in the upper grades. The average per cent increase in the high schools will run from 15 to 25 per cent over the enrollment of the past year. Then, too, there are many over age boys and girls in the sixth, seventh and eighth grades, who have been requested to attend school as the result of the compulsory education law. As is generally known, all children, both boys and girls, must attend school until they have passed their sixteenth birthday and then they can secure age and schooling certificates only on these conditions: 1st. Provided they have completed the work of the 7th grade. 2nd. Provided they are employed. A few more days will suffice to complete the checking of the school registration with the annual enumerations by which time all folks who have evaded attending school the past year will have been apprehended.

The chief social event in the county schools during the months of September and October is the school fairs. The following have been announced: Canfield, Friday evening, Sept. 30 and New Albany, Tuesday, Oct. 4, Calla; Oct. 6, Millville; Oct. 7, Fishersburg and Boardman; Oct. 14, Poland and North Jackson. A new feature in conducting the school fairs was tried in Beaver township. It proved to be a pronounced success. It was in the form of a township school fair. Each of the one-room schools competed for prizes offered on school displays and individual exhibits. The fair was held last Friday evening in the Boyer school. It was simply a wonderful fair. Considerably over 100 feet of table space was loaded down with exhibits. More than 1000 people were present at the fair. It was held outside on the school grounds; music was furnished by the New Springfield band and Judge W. S. Anderson addressed the open-air audience. Prizes of \$8, \$6, \$5 and \$4 were offered to the schools having the best exhibits. All persons present pronounced it something novel in the school fair line and one of the greatest events ever held in the open air country.

The school premiums awarded at the county fair are published complete today in this paper. The different premiums are being distributed to the various winners.

The practice money for the county spelling contest began Monday, Oct. 3, and the real contest Monday, Oct. 31. The football game on Friday evening between Boardman and Canfield resulted in a victory for Boardman. It looks as if the football schedule would involve the following schools: Boardman, Canfield, North Lima, Sebring, Beloit. More interest is manifested in football this year than in any previous year.

Ex-high school inspector C. E. Oliver is in the county this week assisting in listing the needs of the various high schools.

The Key That Unlocks the Door to Long Living

The men of eighty-five and ninety years of age are not the rotund, well-fed, but thin, spare men, who live on a slender diet. Be as careful as he will, however, a man past middle age will occasionally eat some article of food not suited to his constitution, causing indigestion or constipation and will need a dose of Chamberlain's Tablets to move his bowels and invigorate his stomach. When this is done, there is no reason why the average man should not live to a ripe old age.—Adv.

## BETTER THAN GOLD

Better than grandeur, better than gold, Than rank or titles a hundredfold, Is a healthful body, a mind at ease, And simple pleasures that always please.

A heart that can feel for a neighbor's woe, And share in his joy with a friendly glow, With sympathies large enough to unfold, All men as brothers, is better than gold.

Better than gold is the sweet repose, Of the sons of toil when their labors close; Better than gold is the poor man's sleep, And the balm that drops on his slumbering brow.

Better than gold is a thinking mind, That in realms of thought and books can find, A treasure surpassing Australian ore, And live with the great and the good of yore.

Better than gold is a peaceful home, Where all the fireside charities come—The shrine of love and the haven of life, Hallowed by mother, or sister, or wife.

How humble that home may be, Or tried by sorrow by heaven's decree, The blessings that never were bought or sold, And center there are better than gold.

Better than gold in affliction's hour, Is the balm of love with its soothing power; Better than gold on a dying bed Is the hand that pillows the sinking head.

When the pride and glory of life decay, And earth and its vanities fade away, The prostrate sufferer needs not to be told, That trust in heaven is better than gold.

—Alexander Smart.

SEEK INFORMATION ON POTATO BLIGHT

Were your potatoes injured by blight this year? This in short is the basis of a questionnaire sent out by the department of botany, Ohio experiment station, Wooster, to potato growers. So far blight has not attacked potatoes generally, yet officials desire to know where blight has appeared, if any. Some of the potato growing sections in Pennsylvania, Maryland and West Virginia have been attacked by blight and an attempt is being made to correlate blight attacks with weather conditions.

Damp weather is known to favor the development of late blight of potatoes while dry weather retards it. Reports of the presence of blight by farmers to the department at Wooster will also make it possible to determine the probabilities of later outbreaks.

## NEW MAHONING COUNTY TAX RATE

The rates of taxation for 1921 for the cities, villages and townships in Mahoning county, as determined by County Auditor E. M. Faust, have been approved by the Ohio State tax commission at Columbus. The rates are based on the new reappraisal and will be collected in December of 1921 and in June of 1922. Auditor Faust determined the rates on the tax apportionment and the budgets of the various townships and villages. In some instances the rate for 1920 was higher than for 1921, but the reappraisal has lowered the tax rate in some places while in some it has been raised a small percentage.

The following table will give the taxing districts, together with the rate of taxation per \$100 for 1920 and 1921:

## BADGITS—A DISEASE.

"Why do you seek a divorce?" "Your honor, my husband is a victim of badgits."

"Of what?" "Badgits. Every time a badge is pinned on him he forgets all about his business, his home and his family. He spends so much time attending committee meetings for the public welfare and receiving distinguished visitors to the city he can't earn a living."

Origin of Famous Saying. "Some of the old-fashioned editors still write editorials entitled, 'Whither Are We Drifting?'" remarked Mr. Twobble.

"I don't know, but I suspect Noah first said it when there wasn't a scrap of land in sight."—Birmingham Age-Herald.

The Fortunate Youth. "And the wedding, you say, was a success?"

"It was. The man got a woman who could cook, the woman got a man who had something to cook, and her father got rid of the eldest of six daughters."

"That's the usual thing; what made it a success beside that?" "Well, I used to be engaged to the bride!"—Richmond Times-Dispatch.

The uniform success that has attended the use of Chamberlain's Colic and Diarrhoea Remedy in the relief and cure of bowel complaints, both for children and adults, has brought it into almost universal use, so that it is practically without a rival and as everyone who has used it knows, it is without an equal.—Adv.
